

NATIONAL SOLIDARITY PARTY

# MANIFESTO

---

YOUR FUTURE, OUR PRIORITY

2025

# National Solidarity Party Manifesto 2025–2030 *Your Future, Our Priority*

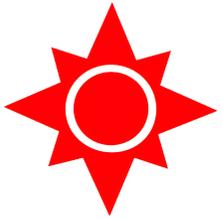

OUR VISION: A FUTURE-READY, FAIR, AND FEARLESS SINGAPORE

NSP envisions a Singapore that is not only globally competitive, but deeply compassionate, civically empowered, and resilient for generations to come.

We believe our politics must go beyond mere efficiency or rhetoric—it must empower the people, nurture new leadership, and hold power accountable to the highest democratic standards.

Where others offer managed change, we offer principled transformation.  
Where others echo the past, we build for the future.

Your Future is Our Priority!

# NSP'S ROLE IN PARLIAMENT: THE PEOPLE'S AUDIT

For the next five years, NSP commits to be Singapore's independent conscience in Parliament—a fearless auditor of government policies, spending, and direction.

We will:

- Audit PAP policies to ensure *public money* is spent *wisely, fairly*, and with *long-term impact*.
- Challenge top-down governance with ground-up proposals informed by lived realities.
- Hold institutions accountable, especially where vulnerable communities are left behind.
- Legislate for the next generation, not the next election.

# YOUTH & FUTURE LEADERSHIP DEVELOPMENT

**Our Youth is our future.**

NSP will:

- Establish a "**NextGen Singapore**" **Youth Leadership Fellowship** to empower young Singaporeans to shape policies, build communities, and challenge the status quo constructively.
- Introduce **mandatory youth representation** in national advisory councils.
- Champion **youth entrepreneurship and innovation funding**, beyond tech startups, to include arts, green economy, social enterprise, and regional outreach.
- **Youth Assembly SG** — A national participatory platform where youth can table and vote on policy ideas with parliamentary response.

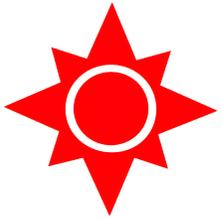

# ECONOMIC SECURITY & DIGNITY FOR ALL

## Economy for the People — Not Just Profits

We reject a trickle-down model that leaves ordinary Singaporeans behind. Instead, we champion a People-Centred Economy that:

- **Implements a Homegrown SMEs First Policy to redirect government support away from GLC-dominated ecosystems towards high-potential, locally owned SMEs to foster economic resilience.**
- **Build regional business and industry network to support locally-owned SMEs to grow overseas with government support from ground up stages.**
- **Launches “Neighbourhood Prosperity Zones” to localised job and enterprise hubs to decentralise economic growth and reduce commute and income inequality.**
- **Reforms CPF Flexibility to introduce an *Opt-in Retirement Access Plan* allowing seniors greater autonomy in drawing down CPF for essential needs.**
- **Review CPF payout structures to ensure adequacy in actual retirement needs, not actuarial optics.**
- **Minimum Living Wage Framework, not just Progressive Wage Models for select sectors.**
- **Amend Workers' Rights Charter to legalize protection for gig workers, ensures fair retrenchment frameworks, and mandates living wages across key sectors.**
- **Green Transition Fund to support businesses and workers in pivoting towards green and regenerative industries, preparing Singapore for the post-carbon economy.**
- **Jobs Transition Security Fund for retraining, wage bridging, and guaranteed placements for displaced workers from sunset industries.**

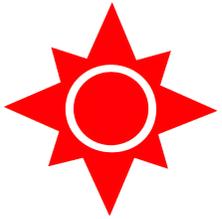

# HEALTHCARE WITH HEART

NSP offers care that is accessible, accountable, and anticipates future needs

## NSP Healthcare Pillars:

- **Universal Primary Care** to expand community clinics with capped \$10 GP visits for citizens under the **CareNear** initiative.
- **Abolish redundancy** across Medisave, MediShield, and Medifund—create a unified, **transparent national health account system**.
- Establish **Mental Health Resilience Hubs** in every town to provide subsidised counselling, youth therapy, and eldercare mental wellness and integrate mental health education in schools and workplaces.
- **Medical Cost Shielding** to introduce *Income-Proportional Caps* on out-of-pocket expenses across all public hospitals.

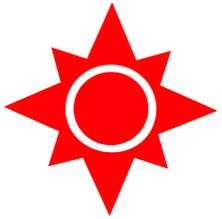

# HOUSING & URBAN INCLUSION

NSP redefines public housing as a long-term social contract—not a speculative asset class.

## NSP Housing Vision:

- Introduce a **“HomeFirst” Model**. Citizens have access to their *first home* with lifetime affordability assurance. Peg BTO prices to construction cost + land acquisition cost, not market valuation.
- **Reform HDB Resale Logic**. Enforce **resale price stabilisers** to prevent BTO-to-private profit-flipping cycles introduce progressive property tax on multiple property holdings.
- **Multi-generational rental cooperatives**. Establish cooperatives to tackle ageing and single-person household isolation.
- **Fair Rental Access**. Expand affordable rental flats for lower-middle income citizens and young adults building independence.
- **Strengthen Lease Decay Security**. Guarantee options for seniors in aging flats through *Lease Conversion or Extension Schemes* without forced relocation.
- **Audit HDB land cost pricing formulas** and demand full transparency in land valuation mechanisms.

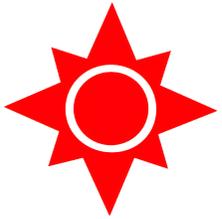

# EDUCATION THAT EMPOWERS, NOT PRESSURE

Singapore must stop sorting children into narrow funnels of success.  
NSP will build a system that nurtures human potential beyond grades.

NSP will:

- Abolish *elitist streaming systems* and shift to **multi-dimensional learning models**.
- **Equalise funding** across schools, including neighbourhood and special education institutions.
- Create **applied-learning tracks** in sustainability, civic leadership, digital media, and regional diplomacy.
- Expand **financial aid and nutrition support** at pre-school and primary levels.
- Financial support for enrichment programmes for lower income families' children.
- **Expand Polytechnic & ITE Pathways**. Fund industry-certified micro-credential programs and employer-sponsored apprenticeships.
- **Class size** of not than 30 for Primary to Secondary schools.
- **Nationalize early childhood education**. Ensures pre-school centres are equipped with the world's best practices. This initiative also ensures every household can afford the costs of unpredictable and ever-rising cost of private childhood education.
- **Financial literacy**. To introduce elective module in upper secondary school

# CLIMATE, SUSTAINABILITY & NATIONAL RESILIENCE

**We cannot build a future without saving our planet and building local resilience.**

NSP will:

- Create a **National Climate Corps**: mobilise youth for environmental and coastal protection projects.
- Audit Singapore's **carbon offsets**, emissions targets, and clean energy investments — ensure they're *real*, not *greenwashed*.
- Mandate **solar energy integration** in all new HDBs and town councils by 2030. Re-channel the savings from Green energy sources back to HDB's lessees.
- Expand urban farming, green roofs, and water conservation measures in every constituency.
- **Audit current recycling policies** and develop a truly efficient body to ensure Singapore's green initiatives are sustainable and scalable.
- **Establish Nature Justice Zones** to protect urban forests and waterways from development unless citizen review and consensus is achieved.

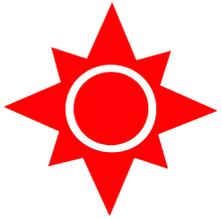

# POLITICAL RENEWAL & CIVIC FREEDOM

We will reform the political system to be **transparent, participatory and accountable**  
— not just efficient.

- Establish a **Democracy Advancement Fund** to support civic education, journalism, and youth participation.
- Push for **live parliamentary broadcasting**.
- **Abolish the mayor system** to reduce unnecessary expenses and avoid duplication of public services.
- Demand **independent appointments** to key institutions like the PA, CPIB, and Presidential Council.
- Establish **Freedom of Information Act**. Enact laws for public data access to enhance transparency and accountability after 20 years. Guarantee citizens' right to access public data, government decisions, and spending.
- **Establish a Standard Elections System**. Set fixed election years and dates to hold elections. This ensures more democratic and fairer elections for Singaporeans.
- **Abolish the GRC System** and return to Single Member Constituencies (SMCs) as the democratic default.
- **Anti-Corruption and Ethics Oversight Body** and to ensure independent of the executive branch, with citizen board representation.
- **Parliamentary Reform**. Establish Proportional Representation in Parliament. Amend the Constitution to allow proportional representation for political parties who got 10% of the total vote share. Grant elected opposition MPs equal access to town councils and constituency resources.

We are not here just to win seats— we are here to reset how power is held and shared in Singapore.

# FAMILY SUPPORT AND BIRTH RATES

Our future generations need more help than ever to ensure the survival of Singaporeans

- **Family-First Policy.** Implement 6 months of shared parental leave, expanded baby bonus, and flexible work entitlements starting from the 1<sup>st</sup> child.
- **Perfect Three Program.** Provides priority assistance to families with three children for education, medical, housing and childcare arrangement.
- **Silver Solidarity Package.** Increased support for single seniors, caregiver grants, and age-in-place infrastructure upgrades. Townships to be built with Multi-generations concept in mind to leverage the strengths of different generations.
- **Caregiver Support Package.** Implement a five days of paid caregiver support leave for working adults. Additional financial support for full time caregivers.
- **Reduce BTO waiting time** to 2.5 years or even shorter.
- **Next-Gen support.** Increase support for our early childhood educator

# AFFORDABLE LIVING, SECURE LIVES

We will restore dignity and breathing room to Singaporean households.

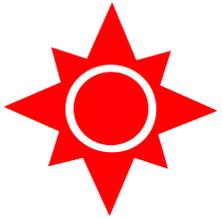

- **Zero GST on Essentials** to remove GST on essential life items and baby supplies.
- **Cost-of-Living Indexation** to peg minimum wage and assistance schemes to a real-time cost-of-living tracker.
- **Township Fair Price Committees** to monitor and cap prices in essential goods and services in high-cost estates.
- **Public Transport Rebate+** to expand distance-based fare discounts for seniors, students, and low-income riders with the ultimate goal of free transport for seniors, physical challenged and children up to 16 years old.

# SOCIAL COHESION AND NATIONAL IDENTITY

With the increasing of Singapore population through new Citizens, we must protect our Singapore identity and culture.

- **Mandatory minimum 6 months of National Services** for all male new citizens above 16 years old and below 40 years old of first generation.
- **Inclusive new citizen pathway.** Reform Singapore's PR-to-Citizen pipeline for first generation new citizens to include community immersion and service-based citizenship modules, not just economic contribution
- **“Unity Through Sports” League.** School and adult amateur competitions with mixed backgrounds and mentorship
- **Year-round Unity Arts Festival** across all towns featuring neighborhood creators, storytellers, musicians, and chefs from all walks of life.
- **NEA hawker centres.** All hawker centres must be reverted to be under NEA management to ensure the continuation of our hawker culture – not just to survive but to thrive.

## **CONCLUSION:**

**Our Core Promise: People First, Always**

Every policy must answer one question: **Does it serve the people?**

At NSP, we are not here for titles. We are here for trust.

We are not here to manage the status quo. We are here to shape a  
**brighter, fairer, freer** Singapore.

**Because “Your Future is Our Priority.”**
